

# Printing eTexts – Windows

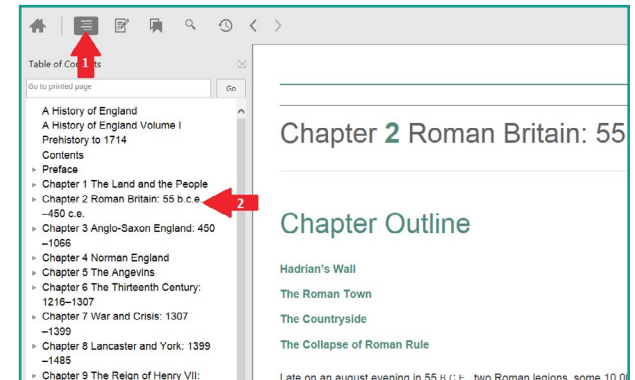

## 1 Sign in the Texidium eReader for Windows.

Use the email address and password you provided while registering for Texidium.

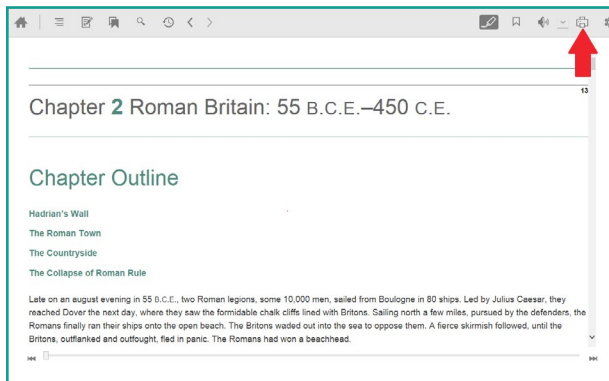

## 2 Open a book.

Open your eText by double clicking the cover art picture.

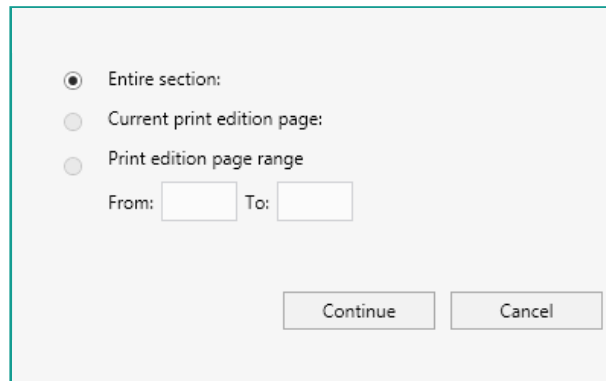

## 3 Navigate to the section you want to print.

Open the Table of Contents (1) and click on the appropriate section (2).

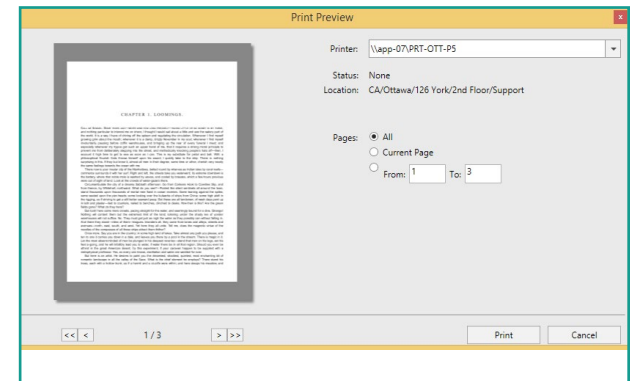

## 4 Click the "Print" button.

Note that it may take a moment for anything to happen when you click the printer icon.

## 5 Select content to print.

Specify whether you wish to print the current page, the entire section, or a specific page range.

## 6 Customize print settings.

Choose a printer and configure options as required. Click "Print" to begin printing.

**Note:** Each eText imposes a restriction on the number of pages that can be printed from it. This restriction is set by the publisher and varies by eText.
