

Getting eTexts Through Blackboard

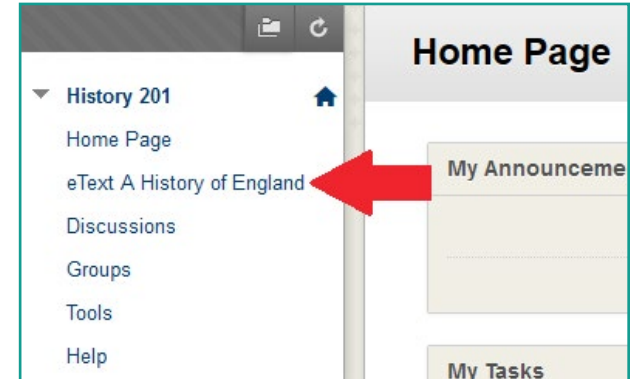

1 Sign in to Blackboard.

Speak to your course instructor or IT Helpdesk if you don't know the URL of your school's Blackboard site or you need help signing in.

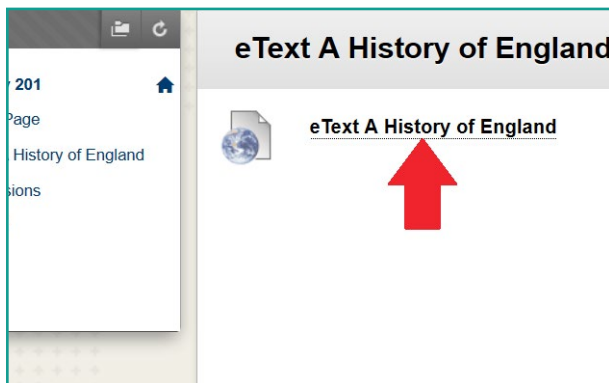

2 Click on your course.

Find the list of courses you're enrolled in and click on the name of the course for which you need an eText.

3 Go to the eText page for your course.

This is found on the left side-menu of the home page for that course.

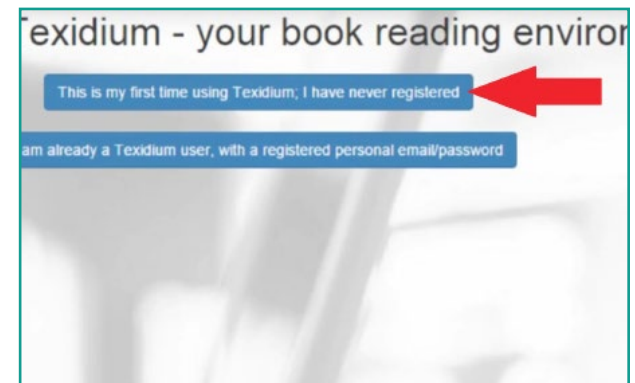

4 Click on the link that is displayed.

This should use the same wording as the link you clicked in the previous step.

5 Click on the thumbnail image.

The image will resemble the cover of the book you are obtaining.

6 Register for Texidium.

Create a Texidium account to gain access to your book and start reading. (Note: If you already have a Texidium account, you must sign in to your existing account instead.)
